

# HYDRAULIC CYLINDER - COMPACT

— Compact (Switch Mounted Double Rod Type) FA 70 • 140kgf/cm<sup>2</sup> Rod Side Flange Type —

**K-HCMGW-FA70 / K-HCMGW-FA140**

[IS]

[IN]

When ST101 or more is set, see the page on the right side for changing the fastening method of FA mounting and cylinder.

- Body (tube) : SUS303
- Rod : S45C+Cr plating
- Piston : AL7075
- Rod End Cap : AL7075
- Applicable operating fluid : General mineral hydraulic oil
- Operating pressure range : 3~70(140)kgf/cm<sup>2</sup>
- Operating speed range : 8~100mm/sec
- Operating temperature range : -10~80°C

**A** Component : 2 lock nuts (IS Type Only)  
2 Auto Switches

 Days to Ship **Quotation**

**Tightening method of FA mounting and cylinder when ST101 or more is set**

**<Specifications of auto switch>**

**W13H**

Usage	Relay, PLC	
Load voltage	DC 24V	AC 110V
Load current	5-40mA	5-20mA
Internal voltage drop	3V or less	
Indicator lamp	On when red LED turns on	
Lead wire length	1m	

<Basic fastening method>

- Insert the bolts from the back of the cylinder and secure it to the FA mounting.

<Fastening method in case of ST101 or more is set>

- Fasten the bolt from the front of the FA plate to the cylinder side. (Existing mounting hole is removed.)

 Order **Part Number**  
**W13H**

 Days to Ship **Quotation**

- \* The default packaging quantity is 1. Please purchase two switches when purchase of 1 hydraulic cylinder.
- \* Short strokes such as ST5~30 are replaced with low sensitivity switch.
- \* Please contact us while changing the lead wire length.

**Mounting method**

**Terms & Conditions:**

- ⚠ Warranty period: 1 year (based on the date of MISUMI shipment)  
 ※ Check the warranty policy for details.
- ⚠ If the internal part of the cylinder is damaged due to the use of contaminated oil (mixing iron, chips, etc.), repair cost will be charged regardless of the warranty period.
- ⚠ For the buckling load, please check reference data.
- ⚠ At the time of mounting, please align the centre of the rod's axis with the direction of load's motion accurately. If the centre is shifted, it may cause malfunction, leakage, packing damage and cylinder damage.
- ⚠ When using extreme cold, extreme high temperature, extreme low pressure, and extreme high pressure, please contact us before ordering. Packing and seal changes are required depending on the environment.
- ⚠ If a problem occurs during use, send the hydraulic cylinder without disassembling it for easy identification.
