### Bearings with Housings

#### L-Shaped

- Suitable when crosswise space needs to be secured.
- The price of sealed VV and DD are the price shown in the table multiplied by 1.1.

  - BGLFA, BGLFS

- **h Configurable**
  - BGLKB, BGLF
  - BGLFS

**Unit Price**

- **Bearing Accuracy:** JIS B 1514 Class 0
- **Surface Treatment:**
  - Electroless Nickel Plating
  - SUS304
  - Spring Steel

**Altimeters**

- Bearings and retaining rings are shipped unassembled to the housing.
- C2 Chamber to be done on the top edge surface.

**Features:**

- Bearings with Rubber Seals (VV and DD) are all made of steel.
- Easier to obtain required axial load rating when space is limited.
- The "(Bx2)" dimension for "T-Shaped Short Double Bearings" type indicates the position where the retaining ring groove begins. Please note that considering the groove width tolerance and the retaining ring thickness tolerance, these data are to max. 0.3 of axial clearance on the bearings.

**Accessibility:**

- For details of Bearing Standards, see No. 605 and 606 are not available for VV (Non-contact Sealed).

### Bearings with Housings

#### T-Shaped Short Double Bearings

- Combining the 2 Bearings can save more space on the front and the back than the standard double type.
