To Our Customers

NE Series Signal Beacons

Notice of Specifications Document Update

We would like to inform you of a change made to the specifications document for the "NE Series." We sincerely apologize for the short notice regarding this update. Please find the detail below and, we kindly ask for your understanding.

Best regards,

Record

1. Target models:

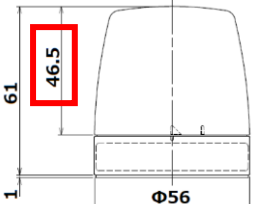

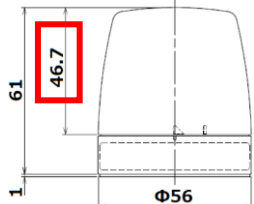

1. NE-A 2. NE-IL 3. NE-USB

2. Reason for Change:

In October 2022, we made a change to the glove height (0.2mm) to improve waterproof performance although total height of 61mm remains unchanged. However, it has come to our attention that the corresponding update to the specifications document and the customer notification were not carried out at that time.

3. Details of Changes:

(Unit: mm)

Specification	Before Change	After Change
External Dimensions		

3. Effective Date:

The update will be reflected in documents issued from July 2025 onward.

Catalogs and other documents that display external dimensions will be updated sequentially.

* Other than described above, there are no changes in product characteristics, appearance, dimensions or price.
