Delivery

Quotation

Alterations	Code	Spec.
<p>No hole for top surface</p>	NBB	No hole for top surface

Example

The top side can be used for mounting various components or serves as the supporting structure.
*Applicable to UZGLM and WSCWM80 series;
*By selecting the “-NBB” alteration (no hole for top surface), components of other specifications or non-standard products may also be mounted through punched holes according to actual circumstances.
